

09 Childcare practice procedures

09.15 Progress check at age two

- The key person is central to the progress check and must be the person completing it via eyLog.
- The progress check is ideally completed by the end of the child's first half term with us. EyLog will trigger the two year check report at 26 months.
- Parents are invited to contribute to the report via eyLog.
- The setting will aim to engage both parents and make allowance for parents who do not live with their child to be involved.

Completing the progress check at age two

- On-going observational assessment informs the progress check and must be referred to.
- Children's contributions are included in the report. Staff must be 'tuned in' to the ways in which very young children, or those with speech or other developmental delay or disability, communicate/
- Where any concerns about a child's learning and development are raised these are discussed with the parents, the SENCo and the setting manager.
- If concerns arise about a child's welfare, they must be addressed through 06 Safeguarding children, young people and vulnerable adults procedures.
- The key person must be clear about the aims of the progress check as follows:
 - to review a child's development in the three prime areas of the EYFS
 - to ensure that parents have a clear picture of their child's development
 - to enable practitioners to understand the child's needs and, with support from practitioners, enhance development at home
 - note areas where a child is progressing well and identify any areas where progress is less than expected
 - describe actions the provider intends to take to address any developmental concerns (working with other professionals as appropriate)
